

Never Reach My Heart

Music by Jeff Saima

Lyric by Caroun Mohana

[Verse 1]

Turn the lights off
Only the sound of hot sparks
On our skin
Take your shirt off, yes you know
Why we got here baby
Tonight we'll be
Drunk on love, nothing else
No shade of lonely

[Bridge]

Please don't disturb me while I
pretend I'm happy
And we don't have any doubts
We were made for this

[Refrain]

Scars on our skin
And canyons in our hearts
We are guided by
Our fears, stranger, hush
Don't say a word
Scratch my skin all you want
But you will never reach my heart

[Verse 2]

What's going on?
Of course you're just another
pretty face
to distract me from the truth
I'm trying to find that one
special soul
that glows even in the dark
as bright as neon lights

[Bridge]

But I'll forget for one night
you're not what I want
And the crowded room 'round us
Fades from our sight

SOLO

[Refrain x2]

Scars on our skin
And canyons in our hearts
We are guided by
Our fears, stranger, hush
Don't say a word
Scratch my skin all you want
But you will never reach my heart
