

Through The Night

Music by Jeff Saima

Lyrics by Caroun Mohana

[Verse 1]

Tonight you will find me by the city lights
chasing colours that are only known by the moon
I am a different person free of fright
but the monsters in my head will take their turn soon

[Bridge]

I'll be crouched in my bed
Hoping that they'll soon drop dead

[Refrain] X 2

Starlight walker
Blossom through the night
Clouds have gone now
Push those thoughts off my mind
Starlight Walker
And I blossom through the night

[Verse 2]

And in the morning when it is time to wake
I seem to be blind for the brilliant sunrise
But I know there is just too much at stake
I can't let myself give up this daily fight

[Bridge]

Can't seem to get out of bed
Wish the voices would drop dead

[Refrain] X 2

Starlight walker
Blossom through the night
Clouds have gone now
Push those thoughts off my mind
Starlight Walker
And I blossom through the night
