

To Wonderland

Music: Jeff Saima

Lyrics: Caroun Mohana

Projekt: Franzey / 2016

**Hey little girl, come take my hand
Let me take you to wonderland
Don't be afraid of strangers like me
Let me take you to wonderland**

**There are things out there waiting for you, now
Let me take you to wonderland
It's okay you're shy, it's your first time
Let me take you to wonderland**

**Strange this age of dreamers and haters
We'd do better by keeping an open mind
Listen when I say your little room in this house does
not have space for a whole life**

**Hey little girl, just follow me
Let me take you to wonderland
I've seen the sparkle in your eyes before
Let me take you to wonderland**

**A light shines from deep within you
It will take you to wonderland
Take your brave heart, trail the map made in your head
It will take you to wonderland**

**Strange this age of dreamers and haters
We'd do better by keeping an open mind
Listen when I say your little room in this house does
not have space for a whole life**
